

"Det Lille Futtog" klip, lim og samle selv

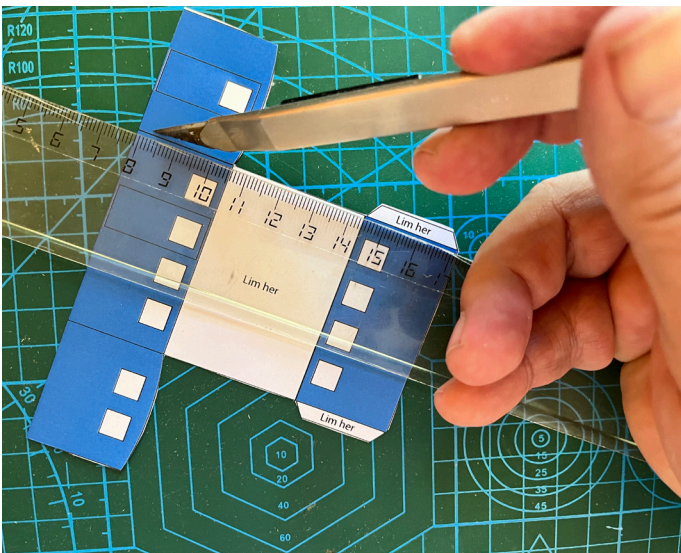

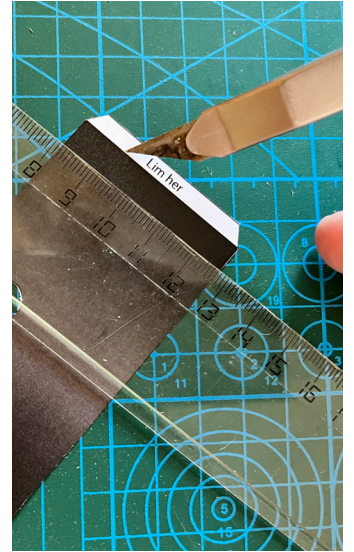

Bygge vejledning

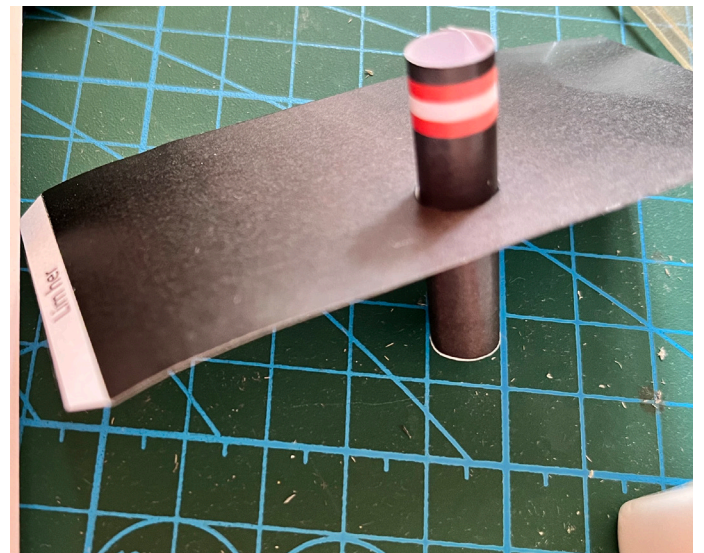

Når du printer din tegning, skal du skære eller klippe hvert enkelt objekt ud.

Skorstenen kan evt. rulle omkring en blyant for at få en pæn runding.

Med en lineal kan du med et let tryk med kniven "stumme" side ridse en bukkesteg.

Samles og limes med alm. hvis trælim.
